

ADAPTIVE GAMING DEVICES

The Handle Ball:

The Handle Ball is a standard bowling ball with a grip that retracts back into the ball once released.

Useful for: Individuals with decreased strength of wrist/hands, difficulty bending, or individuals in a wheel chair.

*Available at: www.achievableconcepts.us/usa_bowlten

Golf Glove:

Allows you to firmly hold the golf club for a controlled swing.

Useful for: Individuals with poor grip, post-CVA, partial hemiplegia.

Clever Clubs:

Allows golfers to golf from a seated position.

Useful for: Individuals who use a wheelchair.

*Available at: www.Accessstr.com

X Box 360 Rear-Triggers Switch Adaptation: Switch user can control one aspect of the game while someone else controls other necessary functions. You may choose which aspect of the game the person with special needs is going to control, such as jumping, firing a weapon, etc.

Useful for: Individuals with gross motor movement but poor fine motor control.

Quad Button Box with attached Xbox 360 wireless controller:

Allows the user to control game with large, adapted push buttons.

Useful for: Individuals with decreased fine motor control.

Xbox Controller with Top-Mounted Button Augmentation/Joystick Extensions:

Larger joysticks allow easier control than small toggle operated by thumb only.

Useful for: Individuals with decreased fine motor control.

*Available at: www.rjcooper.com/game-controller/index
